

CAREER PROFILE

- Passionate and dedicated **leader** with **19 years** of experience in diverse professional environments.
- Excellent **communication & management skills**, leveraging team members to bring projects to success.
- Strong **technical background** allowing to stay close to developers and help them to provide original and efficient solutions.
- **Multicultural experience**, leading people from US, EU, India to solve problems for stakeholders from all regions (APAC, LATAM, US/Canada, EU, Africa)

Stéphane Jupille

Senior Manager

EXPERIENCES

Senior Manager

2022 - Present

NIQ, Lyon (France)

Development of the company new offering. Providing **on demand** aggregation of data directly to our customers. With a solution highly **scalable**, able to server clients in the whole world.

Help best performers to **grow their career** and take more responsibilities.

Leveraging new technologies and cloud capacity: **Azure, Snowflake, Docker, Kubernetes**

Tech Lead

2016 - 2022

NielsenIQ, Vienna (Austria)

Technology leader of one of the 2 factories (Consumer Panel Services). Bringing high **scalability** to the European software to allow it to become the new only international service, following the new vision of the company.

Key aspects of success:

- To **lead and leverage** teams of developers. As the project grew in scope, I led the **recruitment** of a large-scale team.
- To embrace, promote an drive changes (Oracle to **Parquet**, Waterfall to **Agile**, heavy process to **Devops**, On Premise to the **Cloud**, ...)
- End to end management of projects. **Working in collaboration** with Business, Operations and Data scientists to serve our clients need.

EDUCATION

Agile Coatching

Bootcamp in San Francisco
2016

Project management

Nielsen Project
Management Certificate
Program
2014

Informatics Engineer

ISEN (Institut Supérieur
d'Électronique et du
Numérique) Toulon, France
2005

Specialization in Informatics and Networks

Polytechnique School at the
Univ. de Montréal, Canada
2004

Project Manager

2013 - 2015

Nielsen, Oxford (UK)

Managing technology projects end to end (up to 3 projects in parallel). Working with **multicultural and remote teams** (France and India), for internal clients all over the world (US, Europe, Asia). I also during this period became the European Agile reference, transforming a close to impossible project using Waterfall into one of the first Agile success in Nielsen Europe

During those 2 years, I learned all the rigour and processes required to successfully drive bigger projects. Those were a stepping stone for what is coming next.

Chief Engineer

2009 - 2013

CoDecision Technology, Bordeaux

In charge of architecture and development of the **start-up** product. Managing team members locally and remotely. I was also involved in all marketing/commercial actions, participating to exhibitions, investors/client meetings, demonstrations, ...

Working in a startup was excellent learning experience. In this context, I had quickly more responsibilities and participated in many various activities.

Consultant

2006 - 2008

Altran CIS, Paris/Bordeaux

Successfully completed 4 missions in 3 different companies. First as a developer (Oracle, C#, Java) gradually evolving to more responsibilities (Support developer, Project developer, Project Management, Architecture).

This experience as a Consultant was a perfect opportunity to step up in active life and discover different industries (telecom, textile industry, eCommerce)
